PRESIDENT

Believes the Most Serious Peace Problem Is the Philippines.

DEWEY AND MERRITT

Will Have Great Weight in Deciding McKinley's Course.

MADRID PRESS MOURNFUL

Over the Result of Signing the Protocol.

El Epoca Says Peace is the Saddest Imposed Since the Treaty of Utrecht—One Paper Printed the Protocol in Mourning and the Government Suppressed It—No More Troops Will Be Sent to General Merritt—Spain Falls to the Second Rank Among Nations—General Lee Summoned to Washington—Cuban Revenues.

Washington, Aug. 15.—The white house, the war department and the navy department have resumed their usual quietude, a condition which has not prevailed since the Maine was blown up in Havana harbor, February 15. The busy warlike attitude has entirely disappeared and Washington has settled down to a peace basis.

The president believes that the most serious problem which the peace commission will be called upon to deal with is the Philippines. Before the commission assembles it is hoped the affairs of Cuba and Porto Rico will be found in such process of adjustment as to leave little for the commission to consider under that head. The absolute relinquishment by Spain of all sovereignty over the islands in the West Indies will allow only the property questions to be settled between the governments, that is what Spain shall take away and what shall remain as captures of war, and the protection of Spanish subjects and their property in the islands.

The Greater Questions. The greater questions growing out of the war as relating to Cuba and Porto Rico will have to be dealt with by the United States alone. The fact that the Philippines will present the difficult problem in the peace negotiations has caused the administration to give it a great deal of careful attention. Several suggestions have been made as to what shall be done, one being the retention of the bay, city and harbor of Manila, just what the protocol gives temporarily. Another is that Sabag bay and a sufficient amount of territory for a naval and coaling station be secured and the building up of an American city at that place begun. Still another idea which is being considered is the retention of the island of Luzon, the advocates of that plan believing that there would be trouble between the governments which occupied a portion of the island with a

The drummer who tries to talk a merchant into purchasing a bill of goods may be handicapped by a face rendered unsightly by pimples and blotches and by a foul breath. Some men imagine that bad health does not hinder them in business. A bigger mistake may be the biggest kind of a detriment to a business man. An unsightly skin is caused by impurities of the blood. A foul breath means a weak stomach, an impaired digestion and an inactive liver. A sweet breath means that the stomach is sweet, the digestion good, the liver active and the bowels regular. It is an indication of a thoroughly constitutional sweetness. Dr. Pierce's Golden Medical Discovery strengthens the stomach, facilitates the flow of digestive juices, gives edge to the appetite, makes digestion and assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker and flesh-builder. It makes the eye brighter, the skin clearer, the breath sweeter and the step more elastic. It imparts both mental and bodily activity. It cures all diseases resulting from impurities in the blood. Found at all medicine stores.

"I was a complete wreck; appetite gone, nervous system impaired, could not sleep, and was so weak that I could not stand on my feet ten minutes," writes Miss Ella Bartley, of No. 2135 South Grant Ave., Cambridge, Ohio. "I only weighed 95 lbs. Dr. Pierce's Golden Medical Discovery cured me and now I have an excellent appetite, sleep soundly, and my friends say they never saw me so well."

line of demarcation such as would exist in case Manila and the bay only was retained.

The island of Luzon is largest of the group and contains about 3,000,000 people, which are said to be the better class in the Philippines. It is believed, however, that the administration and the commission will be greatly influenced by the reports which Admiral Dewey and General Merritt will make on the subject. Their reports are expected before the commission meets.

Porto Rico and Cuba. The final determination as to the government of Porto Rico and Cuba are problems for settlement, but the impression prevails that these islands will become quite rapidly Americanized, and every encouragement for them to do so will be given. Porto Rico will be under military control for the present. Cuba also will be similarly governed, but it is probable that American reforms in the matter of government will be such that the people of Cuba will see the advantage of becoming annexed to the United States. It is thought the sanitary improvement of Havana and other cities, the management of the municipalities and liberality offered the country people will be of such a character as soon to convince the people that the changed conditions are for their good.

There has been little doubt about soon settling the transfer of Porto Rico, the reception which the American troops have received in that island is a justification for the belief. Porto Rico will be treated at once as a possession. The first movement in this direction will be the sending of a delegation of officials from the postoffice department to investigate and report upon the mail facilities there now, and to make such recommendations as they determine upon. Mail routes, methods of transportation and the conditions of post-offices generally in the island will be examined. Military postoffices will be established at once wherever troops are stationed, and at such other points as may be demanded by the interests of Americans and the people of the islands, if the present offices are not available. A similar course will be taken in Cuba, but this is likely to be delayed as the immediate removal of the Spanish and the occupation by the United States is not expected.

MOURNFUL PRESS. Comments on the Protocol a Veritable Funeral Hymn.

Madrid, Aug. 15.—The governors general of Cuba and Porto Rico have acknowledged the receipt of the news of the suspension of hostilities between the United States and Spain, and announced the carrying out of the orders.

An order has been issued by the captain general of Madrid suspending the publication of the Republican newspaper El Pais.

Reports from Havana state that the bombardment of Manzanillo lasted from 3 o'clock until 9 in the evening and that attacks were made by the insurgents at various points. During the engagement 15 Spaniards were killed. The American commander summoned the town to surrender, giving the authorities three hours in which to capitulate.

El Epoca says: "The peace is the saddest imposed since the treaty of Utrecht," and expresses doubt "if a government which has allowed itself to be dragged into a war will acquire itself well by negotiating peace."

El Pais prints the text of the protocol signed by the United States and Spain with mourning borders and says: "Spain, without colonies, is reduced to the role of a third rate power."

El Imparcial says: "Peace will not bring to Spain even the rest she so much needs after three years and a half of war."

El Nacion says bitterly: "If Spain had at least been vanquished only after a furious and heroic struggle she could resign herself. Peace with the United States will only be a momentary respite from our misfortune."

El Liberal says the article in the protocol relating to the Philippines does not indicate that anything good for Spain will be fixed upon, and the question will not be settled favorably for her.

El Globo (Ministerial) pines for peace between Spain and the United States, and says the communications on eastern question, which Day and Cambon have signed, begin the first chapter in a new history of Europe.

El Tiempo (Conservative) says: "Peace is an accomplished fact. The bitterness of defeat does not prevent us from seeing with satisfaction the end of the war."

NO MORE TROOPS

Will Be Sent to General Merritt Unless He Asks For Them.

Washington, Aug. 15.—No more troops will be sent to General Merritt unless he asks for them. It is believed at the war department that the 16,000 men now there are sufficient to garrison Manila and the ground which the United States for the present will occupy. All of the troops that were with General Shafter in the Santiago campaign will be out of Cuba by Friday of this week. General Shafter will accompany them to Mount Point. There will remain at Santiago five regiments of infantry to do garrison duty. It is yet possible that a battery will be sent sent to Santiago to take the place of the batteries which are to be removed.

General Miles has about 15,000 men in Porto Rico. They will be sufficient for the occupation of the island and perhaps more than are needed after the

Spanish evacuate. The remainder of the troops will remain in the various camps to which they have been assigned for the present, though something may be done looking toward diminishing the number when it becomes apparent that they are no longer needed. The government will dispose of the transports that have been in use as fast as they can be released and are no longer required for service.

REALIZING THE COST.

Spanish Mind Stunned Over the Results of the War.

London, Aug. 15.—The Madrid correspondent of the Daily Mail says: "The comments of the press on the protocol are a veritable funeral hymn on the destruction of the Spanish colonial empire. Some days ago the desire for peace made the people close their eyes to the price, but now upon reading the protocol, they realize that the cost is the loss of that empire which Spain had conquered with so much glory, and that Spain now falls to the second rank among nations. The public mind is stunned and their is general mourning."

"General Blanco telegraphs that Havana is greatly agitated by the news of the signing of the protocol and that much anxiety is manifested to learn the conditions which have not yet been published. Some uneasiness is felt regarding the effect that the text of the protocol may have on the Spanish volunteers in Havana. Many newspapers express grief and despair that the men who brought disaster on Spain by lack of foresight, organization and ability, should continue to govern the country."

Bearers of Important Dispatches.

Washington, Aug. 15.—Lieutenant Colonel Charles Dick, of the Eighth Ohio (the president's own), and Major George Goodfellow, volunteer aid on General Shafter's staff, have arrived in Washington from Santiago. They are the bearers of important dispatches and information from General Shafter to the president and secretary of war.

RIFLE CONTEST.

Between Officers of the Third Division, First Corps at Chickamauga.

Chickamauga, Ga., Aug. 15.—Brigadier General Sanger, commanding the Third division of the First corps, and staff left last night for Lexington, Ky., to locate a camping ground for the Third division. General Sanger was quite confident when he took his departure that he could readily make the necessary arrangements for the reception of the division at Lexington and he therefore expected to be able in two or three days to wire for the troops to proceed to their new camp grounds.

In the officers' rifle contest on Saturday afternoon in which a team of six officers from each regiment of the Third division, First corps, participated, the officers of the Twelfth New York infantry won, their regiment's total score being 249 against 239 for the Eighth Massachusetts, which came second.

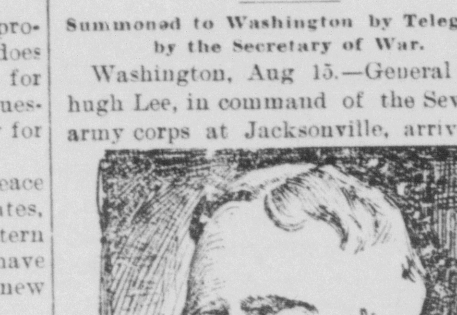

The details are now being arranged for the review of the army on Wednesday of this week as ordered by General Breckinridge. The general anticipates that this review will in many respects, be a notable affair, and certainly a fitting culmination of all demonstrations that have taken place on these grounds since the soldiers pitched their tents in Camp Thomas.

The paymasters resumed paying yesterday and practically completed their work at this camp, after having paid out about \$1,000,000.

GENERAL LEE

Washington, Aug. 15.—General Fitzhugh Lee, in command of the Seventh army corps at Jacksonville, arrived in

Ottawa, Ill., Aug. 15.—Two young farmers, James Nicholson and John Terrill, were drowned in the West Side ravine yesterday. They missed the road and drove off the bank of the ravine, landing in the water 20 feet below. They were pinned in the water by the horse and buggy, which fell upon them. They were drowned in 2 feet of water.

NOW FOR PINE CREEK

Reported Discovery of Rich Placer Diggings in the Northwest.

STAMPEDE FROM JUNEAU

One Thousand Prospectors Start for the New Discovery—Four Men Shovel Out Twenty-six Ounces in Two Days—Gold is Coarse, But is Said to Be Worth \$2 More an Ounce Than Klondike Dust.

Juneau, Alaska, Aug. 10, via Seattle, Wash., Aug. 15.—What is regarded as a most important discovery of rich placer diggings is reported to have been made on Pine creek, a small stream emptying into Atlin lake, a feeder to Lake Tagish. The discovery is located in the Northwest territory, Canada.

The news of the discovery has caused a great stampede from Juneau and other southeastern Alaska points, and it is estimated that at least 1,000 prospectors have started for the locality. As reported here, the find was made two years ago by George Miller of this city, about the time the Klondike was made. Miller allowed his discovery to remain dormant and went to the Klondike.

Last June he returned and, taking a few friends into his confidence, revisited the place and staked out claims.

Walter Carter, who has just returned here from the diggings, says:

"I saw four men shovel in 26 ounces in two days, one pan from bed rock containing \$4. This was on Discovery claim. Pine creek is about 15 miles long and will average 75 feet in width. The current is very swift. The diggings are what is known as 'Bar diggings' or summer placer. Discovery claim is about eight miles from the mouth of the creek. The bed rock is only 5 feet from the surface and is of slate formation. Miller has five men at work shoveling into sluice boxes and he pays \$12 a day each, settling every night with dust from the boxes.

"The men are taking out \$60 a day to the man. The gravel shows from 20 to 150 colors. Captain Strickland of the Canadian mounted police, and several other men are already on the ground and have staked claims for themselves and reserved the government claims. When I left 33 claims had been located and the balance of the creek is reserved by the Canadian government. When I was coming out to Juneau I met a large number of prospectors going into every bay along Tagish lake trying to find the spot, which they had heard of, but whose location they did not know."

The news has caused great excitement in Juneau and every boat leaving here is crowded with prospectors. The gold brought in from the new diggings is like that from the Klondike, very coarse, but it is said to be worth \$2 an ounce more.

SERIOUS TROUBLE

Expected in the Choctaw Nation Over a Disfranchising Proclamation.

South McAlester, I. T., Aug. 15.—There promises to be serious trouble in the Choctaw nation over a proclamation just issued by Governor McCallum disfranchising 700 freedmen at the coming election on August 24. On that date the question of the ratification or rejection of the agreement made and entered into at Atoka on April 23, 1897, by the commissioners on the part of the Choctaw and Chickasaw and the United States is to be decided.

The real question to be decided, the proclamation says, "is what is to be done with the annuities, moneys and public domain of the two nations."

The freedmen have already voted at every election and it is said that, aided by members of the Union party, they will force the judges to accept their votes. The feeling is intense and it is believed that a detachment of soldiers will be required to prevent an uprising.

POPE'S ILLNESS.

All the Members of His Family Hurry to Rome.

Rome, Aug. 15.—The pope's extreme weakness has produced a great commotion, excitement and intrigues among the members of the sacred college. It is reported that France, Germany and Austria, as being chiefly concerned in the accession to the papacy, have ordered their representatives not to leave Rome. Dr. Lappini, the pope's physician, thinks there is no danger if the pope is able to pull through the hot weather. All the members of the family of the pope have hurried to Rome.

His illness on Friday insisted upon getting up, but soon had to be carried to bed again in a state of partial collapse. He does not suffer from any specific affection, but only from debility.

He was of light complexion, with dark hair and mustache and was about 30 years old. He was 5 feet 9 inches tall and wore a blue coat with light trousers and tan shoes. Several dollars were found on him, but nothing by which he could be identified. He did not have the appearance of a tramp.

DISPLEASED

Troops Destined for Manila Ordered Detained at San Francisco.

San Francisco, Aug. 15.—The following dispatch has been received by Major General Merriam in response to his inquiries as to the propriety of permitting the departure of the transports Arizona and Scandia pending the peace negotiations:

WASHINGTON, Aug. 15.

To Major General Merriam, San Francisco:

The secretary of war has caused inquiry to be made of General Merritt as to his needs for further forces. You will hold the Arizona and General King's troops in readiness to sail at once should it be so possible. I will advise you as soon as possible.

By order of the secretary of war.

R. H. CORBIN, Adjutant General.

The order has caused much displeasure among the troops, but they continue hopeful that the establishment of garrisons in Hawaii and Manila and the seeming probability of difficulty with the Philippine insurgents will make their early departure necessary.

SMALLPOX SCARE.

Two Attorneys of Campton, Ky., Come in Contact With Disease.

Campton, Ky., Aug. 15.—The people here are very much alarmed over the case of smallpox at Jackson, as Commonwealth's Attorney A. F. Byrd and County Attorney A. H. Steiner were at Jackson attending court and were with the man the same day he broke out with the disease. In expectation of taking it the two attorneys came home, and retired to a house one mile from town to await the result. The county judge and local board of health are on the alert.

One Death at Fort Thomas.

Fort Thomas, Ky., Aug. 15.—One death occurred in this military camp yesterday, that of Charles Wright, Troop D, Third cavalry. His case was a relapse after convalescence from typhoid fever. Twenty members of the United States hospital corps took trains yesterday for Fort Monroe.

Who Spain May Thank.

City of Mexico, Aug. 15.—The Mexican Herald, commenting on the signing of the protocol, says: "Spain may thank the short sightedness of her statesmen for the loss of Porto Rico. The Cuban question might have been settled long ago, after some Spaniards waned it settled, by selling the island to the American people like the perplexing Cuban question. The island will have to be held as England holds Egypt, and in our opinion it is extremely unlikely ever to enjoy absolute independence; perhaps it is not desirable."

GENERAL WILSON

Has a Skirmish With the Spaniards in Porto Rico.

Five Miles Beyond Coamo, Porto Rico, Aug. 12.—(Delayed in transmission.) General Wilson moved one battery out to the front this afternoon for the purpose of shelling the Spanish on the crest of the mountain at the head of the pass through which the road winds. The enemy occupied a position of great natural strength. The Spaniards were eager for the fray.

As our battery rounded a curve in the road 2,000 yards away the enemy opened an artillery and infantry fire. The guns advanced at a gallop in the face of a terrific fire, and were soon hurling common shell and shrapnel at enemy at lively rate striking the emplacements, batteries and entrenchments with the rhythmic regularity of a trip hammer. The enemy soon abandoned on gun, but continued to serve the other at intervals for an hour, when firing ceased.

NO MORE TROOPS

Will Be Sent to General Merritt Unless
He Asks For Them.

Washington, Aug. 15.—No more
troops will be sent to General Merritt
unless he asks for them. It is believed
at the war department that the 16,000
men now there are sufficient to garrison
Manila and the ground which the
United States for the present will oc-
cupy. All of the troops that were with
General Shafter in the Santiago cam-
paign will be out of Cuba by Friday of
this week. General Shafter will ac-
company them to Montauk Point. There
will remain at Santiago five regiments
of immunes to do garrison duty. It is
yet possible that a battery will be sent
to Santiago to take the place of the
batteries which are to be removed.

General Miles has about 15,000 men
in Porto Rico. They will be sufficient
for the occupation of the island and per-
haps more than are needed after the

Spanish evacuate. The remainder of
the troops will remain in the various
camps to which they have been as-
signed for the present, though some-
thing may be done looking toward di-
minishing the number when it becomes
apparent that they are no longer need-
ed. The government will dispose of the
transports that have been in use as fast
as they can be released and are no longer
required for service.

REALIZING THE COST.
Spanish Mind Stunned Over the Results
of the War.

London, Aug. 15.—The Madrid cor-
respondent of the Daily Mail says:
"The comments of the press on the pro-
tocol are a veritable funeral hymn on
the destruction of the Spanish colonial
empire. Some days ago the desire for
peace made the people close their eyes
to the price, but now upon reading the
protocol, they realize that the cost is
the loss of that empire which Spain had
conquered with so much glory, and that
Spain now falls to the second rank
among nations. The public mind is
stunned and their general mourning."

"General Blanco telegraphs that Ha-
vana is greatly agitated by the news of
the signing of the protocol and that
much anxiety is manifested to learn the
conditions which have not yet been
published. Some uneasiness is felt re-
garding the effect that the text of the
protocol may have on the Spanish volun-
teers in Havana. Many newspapers
express grief and despair that the men
who brought disaster on Spain by lack
of foresight, organization and ability,
should continue to govern the country."

Bearers of Important Dispatches.
Washington, Aug. 15.—Lieutenant-
Colonel Charles Dick, of the Eighth
Ohio (the president's own), and Major
George Goodfellow, volunteer aid on
General Shafter's staff, have arrived in
Washington from Santiago. They are
the bearers of important dispatches and
information from General Shafter to
the president and secretary of war.

RIFLE CONTEST.
Between Officers of the Third Division,
First Corps at Chickamauga.

Chickamauga, Ga., Aug. 15.—Brig-
adier General Sanger, commanding the
Third division of the First corps, and
staff left last night for Lexington, Ky.,
to locate a camping ground for the
division. General Sanger was quite
confident when he took his departure
that he could readily make the neces-
sary arrangements for the reception of
the division at Lexington and he there-
fore expected to be able in two or three
days to wire for the troops to proceed
to their new camp grounds.

In the officers' rifle contest on Sat-
urday afternoon in which a team of six
officers from each regiment of the Third
division, First corps, participated, the
officers of the Twelfth New York in-
fantry won, their regiment's total score
being 249 against 239 for the Eighth
Massachusetts, which came second.

The details are now being arranged
for the review of the army on Wednes-
day of this week as ordered by General
Breckinridge. The general anticipates
that this review will in many respects,
be a notable affair, and certainly a fit-
ting culmination of all demonstrations
that have taken place on these grounds
since the soldiers pitched their tents in
Camp Thomas.

The paymasters resumed paying yester-
day and practically completed their
work at this camp, after having paid
out about \$1,000,000.

GENERAL LEE
Summoned to Washington by Telegram
by the Secretary of War.

Washington, Aug. 15.—General Fitz-
hugh Lee, in command of the Seventh
army corps at Jacksonville, arrived in

St. Louis, Mo., Aug. 15.—The Mexi-
can Herald, commenting on the signing
of the protocol, says: "Spain may thank
the short sightedness of her statesmen
for the loss of Porto Rico. The Cuban
question might have been settled long
ago, after some Spaniards waned it
settled, by selling the island to the
American government. Before the
American people lies the perplexing Cu-
ban question. The island will have to
be held as England holds Egypt, and in
our opinion it is extremely unlikely ever
to enjoy absolute independence; perhaps
it is not desirable."

GENERAL WILSON
Has a Skirmish With the Spaniards in
Porto Rico.

Five Miles Beyond Coamo, Porto
Rico, Aug. 12.—(Delayed in transmis-
sion.) General Wilson moved one bat-
tery out to the front this afternoon for
the purpose of shelling the Spanish on
the crest of the mountain at the head
of the pass through which the road
winds. The enemy occupied a position
of great natural strength. The Span-
iards were eager for the fray.

As our battery rounded a curve in the
road 2,000 yards away the enemy
opened an artillery and infantry fire.
The guns advanced at a gallop in the
face of a terrific fire, and were soon
hurling a cannon shell and shrapnel at
enemy at lively rate striking the em-
placements, batteries and entrench-
ments with the rhythmic regularity of
a trip hammer. The enemy soon aban-
doned our gun, but continued to serve
the other at intervals for an hour, when
firing ceased.

Reported Discovery of
Rich Placer Diggings
in the Northwest.

STAMPEDE FROM JUNEAU
One Thousand Prospectors Start for the
New Discovery—Four Men Shovel Out
Twenty-six Ounces in Two Days—Gold
Is Coarse, But Is Said to Be Worth \$2
More an Ounce Than Klondike Dust.

Juneau, Alaska, Aug. 10, via Seattle,
Wash., Aug. 15.—What is regarded as
a most important discovery of rich
placer diggings is reported to have been
made on Pine creek, a small stream
emptying into Atlin lake, a feeder to
Lake Tagish. The discovery is located
in the Northwest territory, Canada.

The news of the discovery has caused
a great stampede from Juneau and other
southeastern Alaska points, and it is
estimated that at least 1,000 prospectors
have started for the locality. As reported
here, the find was made two years
ago by George Miller of this city, about
the time the Klondike was made. Miller
allowed his discovery to remain dormant
and went to the Klondike.

Last June he returned and, taking a
few friends into his confidence, revisited
the place and staked out claims.

Walter Carter, who has just returned
here from the diggings, says:
"I saw four men shovel in 36 ounces
in two days, one pan from bed rock
containing \$4. This was on Discovery
claim. Pine creek is about 15 miles
long and will average 75 feet in width.
The current is very swift. The dig-
gings are what is known as 'bar
diggings' or summer placer. Discovery
claim is about eight miles from the
mouth of the creek. The bed rock is
only 5 feet from the surface and is of
slate formation. Miller has five men at
work shoveling into sluice boxes and he
pays \$12 a day each, settling every night
with dust from the boxes."

"The men are taking out \$90 a day to
the man. The gravel shows from 20 to
150 colors. Captain Strickland of the
Canadian mounted police, and several
other men are already on the ground
and have staked claims for themselves
and reserved the government claims.
When I left 33 claims had been located
and the balance of the creek is reserved
by the Canadian government. When I
was coming out to Juneau I met a large
number of prospectors going into every
bay along Tagish lake trying to find the
spot, which they had heard of, but
whose location they did not know."

The news has caused great excite-
ment in Juneau and every boat leaving
here is crowded with prospectors. The
gold brought in from the new diggings
is like that from the Klondike, very
coarse, but it is said to be worth \$2 an
ounce more.

SERIOUS TROUBLE
Expected in the Choctaw Nation Over a
Disfranchising Proclamation.

South McAlester, I. T., Aug. 15.—
There promises to be serious trouble in
the Choctaw nation over a proclamation
just issued by Governor McCurtin dis-
franchising 700 freedmen at the coming
election on August 24. On that date
the question of the ratification or re-
jection of the agreement made and en-
tered into at Atoka on April 23, 1897,
by the commissioners on the part of the
Choctaw and Chickasaw and the United
States is to be decided. "The real ques-
tion to be decided," the proclamation
says, "is what is to be done with the
annuities, moneys and public domain of
the two nations."

The freedmen have already voted at
every election and it is said that, aided
by members of the Union party, they
will force the judges to accept their
votes. The feeling is intense and it is
believed that a detachment of soldiers
will be required to prevent an uprising.

POPE'S ILLNESS.

All the Members of His Family Hurry
to Rome.

Rome, Aug. 15.—The pope's extreme
weakness has produced a great com-
motion, excitement and intrigues among
the members of the sacred college. It
is reported that France, Germany and
Austria, as being chiefly concerned in
the accession to the papacy, have or-
dered their representatives not to leave
Rome. Dr. Lappini, the pope's physi-
cian, thinks there is no danger if the
pope is able to pull through the hot
weather. All the members of the family
of the pope have hurried to Rome.

His holiness on Friday insisted upon
getting up, but soon had to be carried
to bed again in a state of partial col-
lapse. He does not suffer from any
specific affection, but only from debility.

Drowned in Two Feet of Water.
Ottawa, Ills., Aug. 15.—Two young
farmers, James Nicholson and John
Terrill, were drowned in the West Side
ravine yesterday. They missed the
road and drove off the bank of the
ravine, landing in the water 2 feet be-
low. They were pinned in the water
by the horse and buggy, which fell upon
them. They were drowned in 2 feet of
water.

plexion, with dark hair and mustache
and was about 30 years old. He was 5
feet 9 inches tall and wore a dark blue
coat with light trousers and tan shoes.
Several dollars were found on him, but
nothing by which he could be identified.
He did not have the appearance of a

General Merriam in response to his in-
quiries as to the propriety of permitting
the departure of the transports Arizona
and Scandia pending the peace negotia-
tions:

WASHINGTON, Aug. 15.
To Major General Merriam, San Francisco:
The secretary of war has caused inquiry
to be made of General Merritt as to his
needs for further forces. You will hold
the Arizona and General Merritt's troops in
readiness to sail at once should it be so
ordered. I will advise you as soon as pos-
sible. By order of the secretary of war.

R. H. CORBIN, Adjutant General.
The order has caused much displeas-
ure among the troops, but they continue
hopeful that the establishment of garri-
sons in Hawaii and Manila and the
seeming probability of difficulty with
the Philippine insurgents will make
their early departure necessary.

Committee to Meet

The Jackson county republican central committee has been called to meet at Seymour August 18, at 10:30 a. m.

The L. A. W. meet is over and the Indianapolis papers are explaining the absence of the great crowd expected. Certainly the slim attendance was no fault of Indianapolis.

The great army of critics and fault-finders who knew just what to do and how to do it, is not the army that enlisted to do the fighting and helped to terminate the war successfully.

It is possible to elect a republican in the Fourth congressional district in November. The democratic party is by no means strong with the people just now and Marion Griffith is no stronger than his party.

It is predicted that Leon Bailey will be nominated for congress in the Seventh district as Tom Taggart is supposed to be for him. Taggart's friendship seems necessary to a Marion county democrat who wants to succeed.

The New York Times independent Democrat, in noticing the tendency of Democratic conventions toward territorial expansion, says that while there may be a peril in it it "involves no national dishonor, as does Bryanism." That is, "it is better to expand than to cheat."—Journal.

CONGRESSMAN Bailey has had the same sort of experience in Texas as he has been having in Congress. He likes to run things but in congress he has not been very successful. In his own state convention a few days ago he found that the democrats of the convention had views not in accord with his therefore he didn't have his own way about the platform.

POLITICAL BREVITIES.

Saturday the populists of Johnson county met at Franklin and nominated J. K. Mathas, for representative, J. V. Deer, for auditor and J. T. Kinnick commissioner.

Otto W. Pegge has been nominated by the republicans of the Sixth judicial district for prosecuting attorney. He is a resident of Ripley county.

Transmission of Typhoid by Dust. The experiments of Geramano, as well as others writers, appear to prove that, in certain conditions of humidity the germ of typhoid fever not only remains alive for a rather long period, but may even preserve its vitality while in a dried condition. These probabilities make clear that vegetables exposed in front of grocery stores and meats exposed in front of butcher shops, could easily receive typhoid germs from the air and thus be transmitted to human beings. The rules of the State Board of Health forbid the exposure of articles of food in front of stores.—State Board of Health Bulletin.

Neatly Caught. A certain Greek adventurer some years ago undertook to palm off upon the public some false copies of the gospel manuscripts. Many learned men were deceived, but not Dr. Cox, librarian of the Bodleian library at Oxford. How he detected the fraud is related in his own words in The Spectator:

"I never really opened the book, but I held it in my hand and took one page of it between my finger and thumb while I listened to the rascal's account of how he found this most interesting antiquity."

At the end of three or four minutes I handed it back to him with the short comment, "Nineteenth century paper, my dear sir," and he took it away in a hurry and did not come again."

Yes, I was pleased, but I have handled several ancient manuscripts in my time, and I know the feel of old paper."

Easily Managed. Some—Editor's sanctum. Printer (rushing in excitedly)—Here's a go! Johnson, the murderer, has just been found innocent, and the government has telegraphed a pardon. We've got the whole account of the hanging set up, with illustrations, and the form is on the press.

Editor (coolly)—Don't get excited, man. Just put over the account in large capitals: "Johnson Pardoned. Full Account of What He Escaped!"—Pearson's Weekly.

Couldn't Translate It. "Is that your baby?" asked the interested party. "What a cute little child! What is he saying now?" "I don't know," replied the perplexed father. You see, his mother carries the code book."—Philadelphia North American.

All at Sea. Absentminded Professor (in the bath tub)—Well, well, now I have forgotten what I got in here for.—Fliegende Blatter.

Physicians declare that the most nutritious article of diet is butter, and bacon comes next.

Every square mile of sea contains 120,000,000 fish of various kinds.

Examination Stories. Isis of Oxford tells two good examination stories. The first is a candidate who in the divinity viva voce was asked to translate a portion of the gospels. As he did not stop at the end of that portion the examiner said to him: "Thank you, Mr. —, that will do. We are quite satisfied with your paper."

"Oh, please," was the answer, "do let me go on. I should so like to find out how this story ends." Modern history furnishes the other. One candidate's paper in the Oxford local examination contained the following luminous and surprising passage: "General Wolfe boldly attacked the Arabian knights without waiting for the other three corpses to come up."

Committee to Meet

The Jackson county republican central committee has been called to meet at Seymour August 18, at 10:30 a. m.

The L. A. W. meet is over and the Indianapolis papers are explaining the absence of the great crowd expected. Certainly the slim attendance was no fault of Indianapolis.

The great army of critics and fault-finders who knew just what to do and how to do it, is not the army that enlisted to do the fighting and helped to terminate the war successfully.

It is possible to elect a republican in the Fourth congressional district in November. The democratic party is by no means strong with the people just now and Marion Griffith is no stronger than his party.

It is predicted that Leon Bailey will be nominated for congress in the Seventh district as Tom Taggart is supposed to be for him. Taggart's friendship seems necessary to a Marion county democrat who wants to succeed.

The New York Times independent Democrat, in noticing the tendency of Democratic conventions toward territorial expansion, says that while there may be a peril in it it "involves no national dishonor, as does Bryanism." That is, "it is better to expand than to cheat."—Journal.

McELREE'S Wine of Cardui

has demonstrated ten thousand times that it is almost infallible

FOR WOMAN'S PECULIAR WEAKNESSES.

Irregularities and derangements. It has become the leading remedy for this class of troubles. It exerts a wonderfully healing, strengthening and soothing influence upon the menstrual organs. It cures "whites" and failing of the womb. It stops flooding and relieves sup-

pressed and painful menstruation. For Change of Life it is the best medicine made. It is medicinal during pregnancy, and helps to bring children into homes barren for years. It invigorates, stimulates, strengthens the whole system. This great remedy is offered to all afflicted women. Why will any woman suffer another minute with certain relief within reach? Wine of Cardui only costs \$1.00 per bottle at your drug store.

For advice, in cases requiring special directions, address giving symptoms, the "McElree's Wine of Cardui" Co., Chattanooga, Tenn.

Rev. J. W. SMITH, Camden, S. C., says: "My wife used Wine of Cardui at home for failing of the womb and it entirely cured her."

CONGRESSMAN Bailey has had the same sort of experience in Texas as he has been having in Congress. He likes to run things but in congress he has not been very successful. In his own state convention a few days ago he found that the democrats of the convention had views not in accord with his therefore he didn't have his own way about the platform.

POLITICAL BREVITIES.

Saturday the populists of Johnson county met at Franklin and nominated J. K. Mathas, for representative, J. V. Deer, for auditor and J. T. Kinick commissioner.

Otto W. Pegee has been nominated by the republicans of the Sixth judicial district for prosecuting attorney. He is a resident of Ripley county.

Transmission of Typhoid by Dust.

The experiments of Geramano, as well as others writers, appear to prove that, in certain conditions of humidity the germ of typhoid fever not only remains alive for a rather long period, but may even preserve its vitality while in a dried condition. These probabilities make clear that vegetables exposed in front of grocery stores and meats exposed in front of butcher shops, could easily receive typhoid germs from the air and thus be transmitted to human beings. The rules of the State Board of Health forbid the exposure of articles of food in front of stores. —State Board of Health Bulletin.

Nearly Caught.

A certain Greek adventurer some years ago undertook to palm off upon the public some false copies of the gospel manuscripts. Many learned men were deceived, but not Dr. Cox, Librarian of the Bodleian Library at Oxford. How he detected the fraud is related in his own words in The Spectator:

"I never really opened the book, but I held it in my hand and took one page of it between my finger and thumb while I listened to the rascal's account of how he found this most interesting antiquity.

"At the end of three or four minutes I handed it back to him with the short comment, 'Nineteenth century paper, my dear sir,' and he took it away in a hurry and did not come again.

"Yes, I was pleased, but I have handled several ancient manuscripts in my time, and I know the feel of old paper.

Easily Managed.

Scene—Editor's sanctum. Printer (rushing in excitedly)—Here's a go! Johnson, the murderer, has just been found innocent, and the government has telegraphed a pardon. We've got the whole account of the hanging set up, with illustrations, and the form is on the press.

Editor (coolly)—Don't get excited, man. Just put over the account in large capitals. Johnson Pardoned. Full Account of What He Escaped!—Pearson's Weekly.

Couldn't Translate It.

"Is that your baby?" asked the interested party. "What a cute little child! What is he saying now?" "I don't know," replied the perplexed father. "You see, his mother carries the code book."—Philadelphia North American.

All at Sea.

Absentminded Professor (in the bath tub)—Well, well, now I have forgotten what I got in here for.—Fliegende Blätter.

Physicians declare that the most nutritious article of diet is butter, and bacon comes next.

Every square mile of sea contains 120,000,000 fish of various kinds.

Examination Stories.

Isis of Oxford tells two good examination stories. The first is a candidate who in the divinity viva voce was asked to translate a portion of the gospels. As he did not stop at the end of that portion the examiner said to him: "Thank you, Mr. —, that will do. We are quite satisfied with your paper." "Oh, please," was the answer, "do let me go on. I should so like to find out how this story ends." Modern history furnishes the other. One candidate's paper in the Oxford local examination contained the following luminous and surprising passage: "General Wolfe boldly attacked the Arabian knights without waiting for the other three corpses to come up."

Antebellum Remedies,
Stamps Won't Save Them

A recent Washington City dispatch says:
"J. C. Ayer & Co., of Lowell, Mass. have written to Washington, stating that a number of their agents have goods on hand still bearing the revenue stamps attached issued during the civil war. They asked if such goods would have to be restamped under the new revenue law. The department has decided in the affirmative.
The civil war was ended over 33 years ago. These goods have been on the market for a long while! And "there are others!"
Would not the consumer fare better if he would go to his druggist and have his medicine prepared as they are prepared, instead of buying those prepared 33 years in advance.

ORDERS TO SUSPEND HOSTILITIES DISPATCHED TO MANILA

The Spanish People Glad the War is Over.—Immunes to be Sent to Santiago to Take Place of Shafter's Troops.

The orders to suspend hostilities were taken to Manila from Hong Kong by the British steamer Australian, which was chartered for that purpose.

A Madrid dispatch to the London Times says that, although some Spaniards are still apprehensive of a Cabinet crisis, such a development would not seriously affect peace negotiations, as Sagasta is sure to have his way. There is said to be not the least doubt that the Cortes will approve his course. The Spanish people generally are pleased that the war is over, although they may subsequently call the Government to account for its lack of preparation for the war. The Spanish press, however, talks mournfully of the destruction of the Spanish colonial empire.

Gen. Blanco telegraphs to Madrid that Havana is greatly agitated over the signing of the protocol, and is anxious to know all the terms. Blanco and Macias have acknowledged the receipt of orders directing a suspension of hostilities, and announced that they have acted accordingly.

Five regiments of immunes will be at Santi go when the last of Gen. Shafter's army leaves, and it is believed that once will be sufficient for the present. They will be under command of Gen. Lawton. Gen. Miles has 15,000 men in Porto Rico and Gen. Merritt has about 16,000 at Manila, or will have when the troops now on the way reach him. There will be no increase of any these forces for the present.

1865. 1898. Antebellum Remedies, Stamps Won't Save Them

A recent Washington City dispatch says:
"J. C. Ayer & Co., of Lowell, Mass. have written to Washington, stating that a number of their agents have goods on hand still bearing the revenue stamps attached issued during the civil war. They asked if such goods would have to be restamped under the new revenue law. The department has decided in the affirmative.
The civil war was ended over 33 years ago. These goods have been on the market for a long while! And 'there are others!'
Would not the consumer fare better if he would go to his druggist and have his medicine prepared as they are needed, instead of buying those prepared 33 years in advance.

PEACE ECHOES.

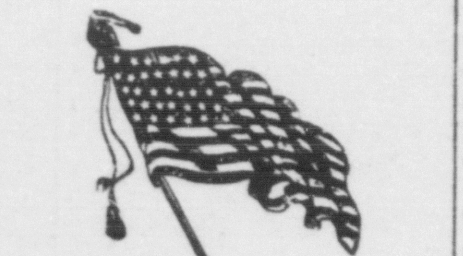

ORDERS TO SUSPEND HOSTILITIES DISPATCHED TO MANILA.

The Spanish People Glad the War is Over.—Immunes to be Sent to Santiago to Take Place of Shafter's Troops.

The orders to suspend hostilities were taken to Manila from Hong Kong by the British steamer Australian, which was chartered for that purpose.

A Madrid dispatch to the London Times says that, although some Spaniards are still apprehensive of a Cabinet crisis, such a development would not seriously affect peace negotiations, as Sagasta is sure to have his way. There is said to be not the least doubt that the Cortes will approve his course. The Spanish people generally are pleased that the war is over, although they may subsequently call the Government to account for its lack of preparation for the war. The Spanish press, however, talks mournfully of the destruction of the Spanish colonial empire.

Gen. Blanco telegraphs to Madrid that Havana is greatly agitated over the signing of the protocol, and is anxious to know all the terms. Blanco and Macias have acknowledged the receipt of orders directing a suspension of hostilities, and announced that they have acted accordingly.

Five regiments of immunes will be at Santi go when the last of Gen. Shafter's army leaves, and it is believed that once will be sufficient for the present. They will be under command of Gen. Lawton. Gen. Miles has 15,000 men in Porto Rico and Gen. Merritt has about 16,000 at Manila, or will have when the troops now on the way reach him. There will be no increase of any these forces for the present.

About one month ago my child which is fifteen months old had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—C. L. Boggs, Stumpson, Gilmer Co. W. Va. For sale by C. W. Milhous.

The Honeymoon Train.

By such a name does the 5:30 p. m. train from Sydney to the Blue mountains go by. The Blue mountains are to Australia what Switzerland is to England, the place where "the fashionables" go to find "coolth" throughout the summer months.

It is also the haunt of the newly married, and the train hardly leaves one day a week without having several happy couples on board—hence its name.

To railway men it is known as "the fish train," the driver's name being Herring, that of the fireman Pike, while the guard has that of the lowly but honest Cockle.—London Standard.

True Courtesy.

General Robert E. Lee was in the cars going to Richmond one day and was seated at the end farthest from the door. The other seats were filled with officers and soldiers. An old woman, poorly dressed, entered at one of the stations, and finding no seat, and having none offered to her, approached the end where the general was seated. He immediately rose and gave her his seat.

Instantly there was a general rising, each one offering his seat to the general. But he calmly said:

"No, gentlemen, if there was no seat for the infirm old woman, there can be none for me."

The effect was remarkable. One after another got out of the car. The seats seemed to be too hot for them, and the general and the old lady soon had the car to themselves.

PENSIONS FOR VETERANS

Three Trains Passed Over Brakeman Kennedy's Body—Church Cornerstone Laid—Will Build a Railroad of His Own. Accidentally Shot Himself—Workhouse Agitation at Elwood, Ind.

Indianapolis, Aug. 15.—The matter of railroad rates for the Knights of Pythias encampment next week has been adjusted most satisfactorily to the executive committee. Since the eastern lines announced the one fare rate over their lines many encouraging letters have been received here regarding attendance.

Scores of letters are coming in daily telling of lodges and uniform rank companies which are coming as bodies. The unfavorable rate at first announced by the eastern lines precluded such a thing. Coming until Tuesday the rate will be 1 cent a mile each way, and on Wednesday and Thursday a rate of one and a third fares for the round trip has been made.

The executive committee has decided to throw open to the public the greater portion of the grandstand to be erected for viewing Tuesday's street parade. Aside from the seats to be reserved for the members of the supreme lodge, the reviewing officers and a few guests, the only six rows of seats will be reserved for sale. They will be sold at \$1, for which tickets may be purchased at the Cincinnati, Hamilton and Dayton office. The other seats will be sold, unreserved, at a nominal price.

HERO OF SANTIAGO.

Lon Furguson of Clay County Had an Arm and a Leg Shot Off.

Brazil, Ind., Aug. 15.—This country furnished one of the heroes in the Santiago battle in the person of Lon Furguson, son of James H. Furguson, a farmer. Furguson joined the regular army five years ago and went west. When war was declared with Spain he was among the first to invade Cuba. His relatives heard nothing from him after war was declared, until Saturday, when his mother received a letter from Santiago, bearing the sad intelligence that her son was in the hospital there with one arm and one leg shot off, but was getting along nicely and in the best of spirits.

PRESIDENT

Believes the Most Serious Peace Problem Is the Philippines.

DEWEY AND MERRITT

Will Have Great Weight in Deciding McKinley's Course.

MADRID PRESS MOURNFUL

Over the Result of Signing the Protocol.

El Epoca Says Peace is the Saddest Imposed Since the Treaty of Utrecht—One Paper Printed the Protocol in Mourning and the Government Suppressed It—No More Troops Will Be Sent to General Merritt—Spain Fails to the Second Rank Among Nations—General Lee Summoned to Washington—Cuban Revenues.

Washington, Aug. 15.—The white house, the war department and the navy department have resumed their usual quietude, a condition which has not prevailed since the Maine was blown up in Havana harbor, February 15. The busy warlike attitude has entirely disappeared and Washington has settled down to a peace basis.

The president believes that the most serious problem which the peace commission will be called upon to deal with is the Philippines. Before the commission assembles it is hoped the affairs of Cuba and Porto Rico will be found in such process of adjustment as to leave little for the commission to consider under that head. The absolute relinquishment by Spain of all sovereignty over the islands in the West Indies will allow only the property questions to be settled between the governments, that is what Spain shall take away and what shall remain as captures of war, and the protection of Spanish subjects and their property in the islands.

The greater questions growing out of the war as relating to Cuba and Porto Rico will have to be dealt with by the United States alone. The fact that the Philippines will present the difficult problem in the peace negotiations has caused the administration to give it a great deal of careful attention. Several suggestions have been made as to what shall be done, one being the retention of the bay, city and harbor of Manila, just what the protocol gives temporarily. Another is that Subig bay and a sufficient amount of territory for a naval and coaling station be secured and the building up of an American city at that place begun. Still another idea which is being considered is the retention of the island of Luzon, the advocates of that plan believing that there would be trouble between the governments which occupied a portion of the island with a

line of demarcation such as would exist in case Manila and the bay only was retained.

The island of Luzon is largest of the group and contains about 3,000,000 people, which are said to be the better class in the Philippines. It is believed, however, that the administration and the commission will be greatly influenced by the reports which Admiral Dewey and General Merritt will make on the subject. Their reports are expected before the commission meets.

Porto Rico and Cuba.

The final determination as to the government of Porto Rico and Cuba are problems for settlement, but the impression prevails that these islands will become quite rapidly Americanized, and every encouragement for them to do so will be given. Porto Rico will be under military control for the present. Cuba also will be similarly governed, but it is probable that American reforms in the matter of government will be such that the people of Cuba will see the advantage of becoming annexed to the United States. It is thought the sanitary improvement of Havana and other cities, the management of the municipalities and liberality offered the country people will be of such a character as soon to convince the people that the changed conditions are for their good.

There has been little doubt about soon settling the transfer of Porto Rico, the reception which the American troops have received in that island is a justification for the belief. Porto Rico will be treated at once as a possession. The first movement in this direction will be the sending of a delegation of officials from the postoffice department to investigate and report upon the mail facilities there now, and to make such recommendations as they determine upon. Mail routes, methods of transportation and the conditions of post-offices generally in the island will be examined. Military postoffices will be established at once wherever troops are stationed, and at such other points as may be demanded by the interests of Americans and the people of the islands, if the present offices are not available. A similar course will be taken in Cuba, but this is likely to be delayed as the immediate removal of the Spanish and the occupation by the United States is not expected.

MOURNFUL PRESS.

Comments on the Protocol a Veritable Funeral Hymn.

Madrid, Aug. 15.—The governors general of Cuba and Porto Rico have acknowledged the receipt of the news of the suspension of hostilities between the United States and Spain, announced the carrying out of the orders.

An order has been issued by the captain general of Madrid suspending the publication of the Republican newspaper El Pais.

Reports from Havana state that the bombardment of Manzanillo lasted from 3 o'clock until 9 in the evening and that attacks were made by the insurgents at various points. During the engagement 15 Spaniards were killed. The American commander summoned the town to surrender, giving the authorities three hours in which to capitulate.

El Epoca says: "The peace is the saddest imposed since the treaty of Utrecht," and expresses doubt "if a government which has allowed itself to be dragged into a war will acquit itself well by negotiating peace."

El Pais prints the text of the protocol signed by the United States and Spain with mourning borders and says: "Spain, without colonies, is reduced to the role of a third rate power."

El Imparcial says: "Peace will not bring to Spain even the rest she so much needs after three years and a half of war."

El Nacion says bitterly: "If Spain had at least been vanquished only after a furious and heroic struggle she could resign herself. Peace with the United States will only be a momentary respite from our misfortune."

El Liberal says the article in the protocol relating to the Philippines does not indicate that anything good for Spain will be fixed upon, and the question will not be settled favorably for her.

El Globo (Ministerial) pines for peace between Spain and the United States, and says the communications on eastern question, which Day and Cambon have signed, begin the first chapter in a new history of Europe.

El Tiempo (Conservative) says: "Peace is an accomplished fact. The bitterness of defeat does not prevent us from seeing with satisfaction the end of the war."

NO MORE TROOPS

Will Be Sent to General Merritt Unless He Asks For Them.

Washington, Aug. 15.—No more troops will be sent to General Merritt unless he asks for them. It is believed at the war department that the 16,000 men now there are sufficient to garrison Manila and the ground which the United States for the present will occupy. All of the troops that were with General Shafter in the Santiago campaign will be out of Cuba by Friday of this week. General Shafter will accompany them to Montauk Point. There will remain at Santiago five regiments of immunes to do garrison duty. It is yet possible that a battery will be sent to Santiago to take the place of the batteries which are to be removed.

General Miles has about 15,000 men in Porto Rico. They will be sufficient for the occupation of the island and perhaps more than are needed after the

Spanish evacuate. The remainder of the troops will remain in the various camps to which they have been assigned for the present, though something may be done looking toward diminishing the number when it becomes apparent that they are no longer needed. The government will dispose of the transports that have been in use as fast as they can be released and are no longer required for service.

REALIZING THE COST.

Spanish Mind Stunned Over the Results of the War.

London, Aug. 15.—The Madrid correspondent of the Daily Mail says: "The comments of the press on the protocol are a veritable funeral hymn on the destruction of the Spanish colonial empire. Some days ago the desire for peace made the people close their eyes to the price, but now upon reading the protocol, they realize that the cost is the loss of that empire which Spain had conquered with so much glory, and that Spain now falls to the second rank among nations. The public mind is stunned and their is general mourning."

"General Blanco telegraphs that Havana is greatly agitated by the news of the signing of the protocol and that much anxiety is manifested to learn the conditions which have not yet been published. Some uneasiness is felt regarding the effect that the text of the protocol may have on the Spanish volunteers in Havana. Many newspapers express grief and despair that the moon who brought disaster on Spain by lack of foresight, organization and ability, should continue to govern the country."

Bearers of Important Dispatches. Washington, Aug. 15.—Lieutenant Colonel Charles Dick, of the Eighth Ohio (the president's own), and Major George Goodfellow, volunteer aid on General Shafter's staff, have arrived in Washington from Santiago. They are the bearers of important dispatches and information from General Shafter to the president and secretary of war.

RIFLE CONTEST.

Between Officers of the Third Division, First Corps at Chickamauga.

Chickamauga, Ga., Aug. 15.—Brigadier General Sanger, commanding the Third division of the First corps, and staff left last night for Lexington, Ky., to locate a camping ground for the Third division. General Sanger was quite confident when he took his departure that he could readily make the necessary arrangements for the reception of the division at Lexington and he therefore expected to be able in two or three days to wire for the troops to proceed to their new camp grounds.

In the officers' rifle contest on Saturday afternoon in which a team of six officers from each regiment of the Third division, First corps, participated, the officers of the Twelfth New York infantry won, their regiment's total score being 249 against 239 for the Eighth Massachusetts, which came second.

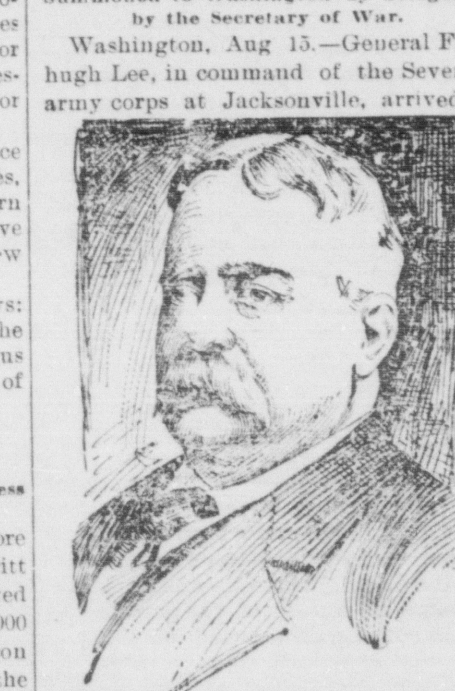

The details are now being arranged for the review of the army on Wednesday of this week as ordered by General Breckinridge. The general anticipates that this review will in many respects, be a notable affair, and certainly a fitting culmination of all demonstrations that have taken place on these grounds since the soldiers pitched their tents in Camp Thomas.

The paymasters resumed paying yesterday and practically completed their work at this camp, after having paid out about \$1,000,000.

GENERAL LEE

Summoned to Washington by Telegram by the Secretary of War.

Washington, Aug. 15.—General Fitzhugh Lee, in command of the Seventh army corps at Jacksonville, arrived in

Washington last night in response to telegraphic orders from the secretary of war, to whom he reported this morning. The general was accompanied by his son, who is a member of his staff.

3,000,000 FRO.

Fresno, Cal., Aug. 15.—The conflagration devastated a large area in the packing house district in Fresno this morning. The aggregate loss is variously estimated from a conservative standpoint at from \$300,000 to \$450,000.

NOW FOR PINE CREEK

Reported Discovery of Rich Placer Diggings in the Northwest.

STAMPEDE FROM JUNEAU

One Thousand Prospectors Start for the New Discovery—Four Men Shovel Out Twenty-six Ounces in Two Days—Gold is Coarse, But is Said to Be Worth \$2 More an Ounce Than Klondike Dust.

Juneau, Alaska, Aug. 10, via Seattle, Wash., Aug. 15.—What is regarded as a most important discovery of rich placer diggings is reported to have been made on Pine creek, a small stream emptying into Atlin lake, a feeder to Lake Tagish. The discovery is located in the Northwest territory, Canada.

The news of the discovery has caused a great stampede from Juneau and other southeastern Alaska points, and it is estimated that at least 1,000 prospectors have started for the locality. As reported here, the find was made two years ago by George Miller of this city, about the time the Klondike was made. Miller allowed his discovery to remain dormant and went to the Klondike.

Last June he returned and, taking a few friends into his confidence, revisited the place and staked out claims.

Walter Carter, who has just returned here from the diggings, says:

"I saw four men shovel in 26 ounces in two days, one pan from bed rock containing \$4. This was on Discovery claim. Pine creek is about 15 miles long and will average 75 feet in width. The current is very swift. The diggings are what is known as 'bar diggings' or summer placer. Discovery claim is about eight miles from the mouth of the creek. The bed rock is only 5 feet from the surface and is of slate formation. Miller has five men at work shoveling into sluice boxes and he pays \$12 a day each, settling every night with dust from the boxes.

"The men are taking out \$90 a day to the man. The gravel shows from 20 to 150 colors. Captain Strickland of the Canadian mounted police, and several other men are already on the ground and have staked claims for themselves and reserved the government claims. When I left 33 claims had been located and the balance of the creek is reserved by the Canadian government. When I was coming out to Juneau I met a large number of prospectors going into every bay along Tagish lake trying to find the spot, which they had heard of, but whose location they did not know."

The news has caused great excitement in Juneau and every boat leaving here is crowded with prospectors. The gold brought in from the new diggings is like that from the Klondike, very coarse, but it is said to be worth \$2 an ounce more.

SERIOUS TROUBLE

Expected in the Choctaw Nation Over a Disfranchising Proclamation.

South McAlester, I. T., Aug. 15.—There promises to be serious trouble in the Choctaw nation over a proclamation just issued by Governor McCurtin disfranchising 700 freedmen at the coming election on August 24. On that date the question of the ratification or rejection of the agreement made and entered into at Atoka on April 23, 1897, by the commissioners on the part of the Choctaw and Chickasaw and the United States is to be decided. "The real question to be decided," the proclamation says, "is what is to be done with the annuities, moneys and public domain of the two nations."

The freedmen have already voted at every election and it is said that, aided by members of the Union party, they will force the judges to accept their votes. The feeling is intense and it is believed that a detachment of soldiers will be required to prevent an uprising.

POPE'S ILLNESS.

All the Members of His Family Hurry to Rome.

Rome, Aug. 15.—The pope's extreme weakness has produced a great commotion, excitement and intrigues among the members of the sacred college. It is reported that France, Germany and Austria, as being chiefly concerned in the accession to the papacy, have ordered their representatives not to leave Rome. Dr. Lappont, the pope's physician, thinks there is no danger if the pope is able to pull through the hot weather. All the members of the family of the pope have hurried to Rome.

His holiness on Friday insisted upon getting up, but soon had to be carried to bed again in a state of partial collapse. He does not suffer from any specific affection, but only from debility.

DROWNED IN TWO FEET OF WATER.

Ottawa, Ill., Aug. 15.—Two young farmers, James Nicholson and John Terrill, were drowned in the West Side ravine yesterday. They missed the road and drove off the bank of the ravine, leading to the water 2 feet below. They were pinned in the water by the horse and buggy, which fell upon them. They were drowned in 2 feet of water.

FOUND DEAD.

Well Dressed, Unknown Man Killed by a Train.

Greencastle, Ind., Aug. 15.—A well dressed stranger was found dead on the Vandalia tracks about one mile east of this city Saturday, having been run over by the cars. He was of light complexion, with dark hair and mustache and was about 30 years old. He was 5 feet 9 inches tall and wore a dark blue coat with light trousers and tan shoes. Several dollars were found on him, but nothing by which he could be identified. He did not have the appearance of a tramp.

Red Men to Meet.

Bloomington, Aug. 15.—Wednesday and Thursday of this week will be big days for Bloomington. The fourth annual state pow-wow of the Independent Order of Red Men will be held in this city. Members of the order from all over the state will begin to gather in the city Wednesday, and unless all expectations fall there will be an attendance of at least 10,000 braves.

DISPLEASED

Troops Destined for Manila Ordered Detained at San Francisco.

San Francisco, Aug. 15.—The following dispatch has been received by Major General Merriam in response to his inquiries as to the propriety of permitting the departure of the transports Arizona and Scandia pending the peace negotiations:

WASHINGTON, Aug. 15. To Major General Merriam, San Francisco: The secretary of war has caused inquiry to be made of General Merritt as to his needs for further forces. You will hold the Arizona and General King's troops in readiness to sail at once should it be so ordered. I will advise you as soon as possible. By order of the secretary of war. R. H. CORBIN, Adjutant General. The order has caused much displeasure among the troops, but they continue hopeful that the establishment of garrisons in Hawaii and Manila and the seeming probability of difficulty with the Philippine insurgents will make their early departure necessary.

SMALLPOX SCARE.

Two Attorneys of Campton, Ky., Come in Contact With Disease.

Campton, Ky., Aug. 15.—The people here are very much alarmed over the case of smallpox at Jackson, as Commonwealth's Attorney A. F. Byrd and County Attorney A. H. Stiemper were at Jackson attending court and were with the man the same day he broke out with the disease. In expectation of taking it the two attorneys came home, and retired to a house one mile from town to await the result. The county judge and local board of health are on the alert.

One Death at Fort Thomas.

Fort Thomas, Ky., Aug. 15.—One death occurred in this military camp yesterday, that of Charles Wright, Troop D, Third cavalry. His case was a relapse after convalescence from typhoid fever. Twenty members of the United States hospital corps took trains yesterday for Fort Monroe.

Who Spain May Think.

City of Mexico, Aug. 15.—The Mexican Herald, commenting on the signing of the protocol, says: "Spain may think the short sightedness of her statesmen for the loss of Porto Rico. The Cuban question might have been settled long ago, after some Spaniards wanted it settled, by selling the island to the American people lies the perplexing Cuban question. The island will have to be held as England holds Egypt, and in our opinion it is extremely unlikely ever to enjoy absolute independence; perhaps it is not desirable."

GENERAL WILSON

Has a Skirmish With the Spaniards in Porto Rico.

Five Miles Beyond Coamo, Porto Rico, Aug. 12.—(Delayed in transmission.) General Wilson moved one battery out to the front this afternoon for the purpose of shelling the Spanish on the crest of the mountain at the head of the pass through which the road winds. The enemy occupied a position of great natural strength. The Spaniards were eager for the fray.

As our battery rounded a curve in the road 2,000 yards away the enemy opened an artillery and infantry fire. The guns advanced at a gallop in the face of a terrific fire, and were soon hurling common shell and shrapnel at enemy at lively rate striking the emplacements, batteries and entrenchments with the rhythmic regularity of a trip hammer. The enemy soon abandoned on gun, but continued to serve the other at intervals for an hour, when firing ceased.

Committee to Meet

The Jackson county republican central committee has been called to meet at Seymour August 18, at 10:30 a. m.

The L. A. W. meet is over and the Indianapolis papers are explaining the absence of the great crowd expected. Certainly the slim attendance was no fault of Indianapolis.

The great army of critics and fault-finders who knew just what to do and how to do it, is not the army that enlisted to do the fighting and helped to terminate the war successfully.

It is possible to elect a republican in the Fourth congressional district in November. The democratic party is by no means strong with the people just now and Marion Griffith is no stronger than his party.

It is predicted that Leon Bailey will be nominated for congress in the Seventh district as Tom Taggart is supposed to be for him. Taggart's friendship seems necessary to a Marion county democrat who wants to succeed.

The New York Times independent Democrat, in noticing the tendency of Democratic conventions toward territorial expansion, says that while there may be a peril in it "involves no national dishonor, as does Bryanism." That is, "it is better to expand than to cheat."—Journal.

McELREE'S Wine of Cardui

has demonstrated ten thousand times that it is almost infallible

FOR WOMAN'S PECULIAR WEAKNESSES,

Irregularities and derangements. It has become the leading remedy for this class of troubles. It exerts a wonderfully healing, strengthening and soothing influence upon the menstrual organs. It cures "whites" and falling of the womb. It stops flooding and relieves sup-

pressed and painful menstruation. For Change of Life it is the best medicine made. It is beneficial during pregnancy, and helps to bring children into homes barren for years. It invigorates, stimulates, strengthens the whole system. This great remedy is offered to all afflicted women. Why will any woman suffer another minute with certain relief within reach? Wine of Cardui only costs \$1.00 per bottle at your drug store.

For advice, in cases requiring special directions, address giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Rev. J. W. SMITH, Camden, S. C., says:

"My wife used Wine of Cardui at home for falling of the womb and it entirely cured her."

CONGRESSMAN Bailey has had the same sort of experience in Texas as he has been having in Congress. He likes to run things but in congress he has not been very successful. In his own state convention a few days ago he found that the democrats of the convention had views not in accord with his therefore he didn't have his own way about the platform.

POLITICAL BREVITIES.

Saturday the populists of Johnson county met at Franklin and nominated J. K. Mathas, for representative, J. V. Deer, for auditor and J. T. Kinnick commissioner.

Otto W. Pegge has been nominated by the republicans of the Sixth judicial district for prosecuting attorney. He is a resident of Ripley county.

Transmission of Typhoid by Dust. The experiments of Geramano, as well as others writers, appear to prove that, in certain conditions of humidity the germ of typhoid fever not only remains alive for a rather long period, but may even preserve its vitality while in a dried condition. These probabilities make clear that vegetables exposed in front of grocery stores and meats exposed in front of butcher shops, could easily receive typhoid germs from the air and thus be transmitted to human beings. The rules of the State Board of Health forbid the exposure of articles of food in front of stores. —State Board of Health Bulletin.

Neatly Caught. A certain Greek adventurer some years ago undertook to palm off upon the public some false copies of the gospel manuscripts. Many learned men were deceived, but not Dr. Cox, librarian of the Bodleian library at Oxford. How he detected the fraud is related in his own words in The Spectator:

"I never really opened the book, but I held it in my hand and took one page of it between my finger and thumb while I listened to the reader's account of how he found this most interesting antiquity.

At the end of three or four minutes I handed it back to him with the short comment, "Nineteenth century paper, my dear sir," and he took it away in a hurry and did not come again.

Yes, I was pleased, but I have handled several ancient manuscripts in my time, and I know the feel of old paper.

Easily Managed. Scene—Editor's sanctum. Printer (rushing in excitedly)—Here's a go! Johnson, the murderer, has just been found innocent, and the government has telegraphed a pardon. We've got the whole account of the hanging set up, with illustrations, and the form is on the press.

Editor (coolly)—Don't get excited, man. Just put over the account in large capitals: "Johnson Pardoned. Full Account of What He Escaped!"—Pearson's Weekly.

Couldn't Translate It. "Is that your baby?" asked the interested party. "What a cute little child! What is he saying now?" "I don't know," replied the perplexed father. "You see, his mother carries the code book."—Philadelphia North American.

All at Sea. Absentminded Professor (in the bathtub)—Well, well, now I have forgotten what I got in here for.—Fliegende Blätter.

Physicians declare that the most nutritious article of diet is butter, and bacon comes next.

Every square mile of sea contains 120,000,000 fish of various kinds.

Examination Stories. Isis of Oxford tells two good examination stories. The first is a candidate who in the divinity viva voce was asked to translate a portion of the gospels. As he did not stop at the end of that portion the examiner said to him: "Thank you, Mr. —, that will do. We are quite satisfied with your paper."

"Oh, please," was the answer, "do let me go on. I should so like to find out how this story ends." Modern history furnishes the other. One candidate's paper in the Oxford local examination contained the following luminous and surprising passage, "General Wolfe boldly attacked the Arabian knights without waiting for the other three corpses to come up."

Antebellum Remedies, Stamps Won't Save Them

A recent Washington City dispatch says:

"J. C. Ayer & Co., of Lowell, Mass. have written to Washington, stating that a number of their agents have goods on hand still bearing the revenue stamps attached issued during the civil war. They asked if such goods would have to be restamped under the new revenue law. The department has decided in the affirmative.

The civil war was ended over 33 years ago. These goods have been on the market for a long while! And 'there are others!'

Would not the consumer fare better if he would go to his druggist and buy his medicine prepared as they are needed, instead of buying those prepared 33 years in advance.

PEACE ECHOES.

**ORDERS TO SUSPEND HOSTILITIES
DISPATCHED TO MANILA**

The Spanish People Glad the War is Over.—Immunes to be Sent to Santiago to Take Place of Shafter's Troops.

The orders to suspend hostilities were taken to Manila from Hong Kong by the British steamer Australian, which was chartered for that purpose.

A Madrid dispatch to the London Times says that, although some Spaniards are still apprehensive of a Cabinet crisis, such a development would not seriously affect peace negotiations, as Sagasta is sure to have his way. There is said to be not the least doubt that the Cortes will approve his course. The Spanish people generally are pleased that the war is over, although they may subsequently call the Government to account for its lack of preparation for the war. The Spanish press, however, talks mournfully of the destruction of the Spanish colonial empire.

Gen. Blanco telegraphs to Madrid that Havana is greatly agitated over the signing of the protocol, and is anxious to know all the terms. Blanco and Macias have acknowledged the receipt of orders directing a suspension of hostilities, and announced that they have acted accordingly.

Five regiments of immunes will be at Santiago when the last of Gen. Shafter's army leaves, and it is believed that once will be sufficient for the present. They will be under command of Gen. Lawton. Gen. Miles has 15,000 men in Porto Rico and Gen. Merritt has about 16,000 at Manila, or will have when the troops now on the way reach him. There will be no increase of any these forces for the present.
